

Nursing Outcomes Classification (NOC), 3rd ed.
Outcome Labels and Definitions
(330 Outcomes)

2500 Abuse Cessation Evidence that the victim is no longer hurt or exploited
2501 Abuse Protection Protection of self or dependent others from abuse
2514 Abuse Recovery Status Extent of healing following physical or psychological abuse that may include sexual or financial exploitation
2502 Abuse Recovery: Emotional Extent of healing of psychological injuries due to abuse
2503 Abuse Recovery: Financial Extent of control of monetary and legal matters following financial exploitation
2504 Abuse Recovery: Physical Extent of healing of physical injuries due to abuse
2505 Abuse Recovery: Sexual Extent of healing of physical and psychological injuries due to sexual abuse or exploitation
1400 Abusive Behavior Self-Restraint Self-restraint of abusive and neglectful behaviors towards others
1300 Acceptance: Health Status Reconciliation to significant change in health circumstances
0005 Activity Tolerance Physiologic response to energy-consuming movements with daily activities
1308 Adaptation to Physical Disability Adaptive response to a significant functional challenge due to a physical disability
1600 Adherence Behavior Self-initiated actions to promote wellness, recovery, and rehabilitation
1401 Aggression Self-Control Self-restraint of assaultive, combative, or destructive behaviors toward others
0705 Allergic Response: Localized Severity of localized hypersensitive immune response to a specific environmental (exogenous) antigen
0706 Allergic Response: Systemic Severity of systemic hypersensitive immune response to a specific environmental (exogenous) antigen
0200 Ambulation Ability to walk from place to place independently with or without assistive device
0201 Ambulation: Wheelchair Ability to move from place to place in a wheelchair
1211 Anxiety Level Severity of manifested apprehension, tension, or uneasiness arising from an unidentifiable source
1402 Anxiety Self-Control Personal actions to eliminate or reduce feelings of apprehension, tension, or uneasiness from an unidentifiable source
1014 Appetite Desire to eat when ill or receiving treatment
1918 Aspiration Prevention Personal actions to prevent the passage of fluid and solid particles into the lung
0704 Asthma Self-Management Personal actions to reverse inflammatory condition resulting in bronchial constriction of the airways
0202 Balance Ability to maintain body equilibrium
0409 Blood Coagulation Extent to which blood clots within normal period of time
2300 Blood Glucose Level Extent to which glucose levels in plasma and urine are maintained in normal range
0413 Blood Loss Severity Severity of internal or external bleeding/hemorrhage
0700 Blood Transfusion Reaction Severity of complications with blood transfusion reaction

1200 Body Image Perception of own appearance and body functions
1616 Body Mechanics Performance Personal actions to maintain proper body alignment and to prevent muscular skeletal strain
0203 Body Positioning: Self-Initiated Ability to change own body position independently with or without assistive device
1104 Bone Healing Extent of regeneration of cells and tissues following bone injury
0500 Bowel Continence Control of passage of stool from the bowel
0501 Bowel Elimination Formation and evacuation of stool
1000 Breastfeeding Establishment: Infant Infant attachment to and sucking from the mother's breast for nourishment during the first 3 weeks of breastfeeding
1001 Breastfeeding Establishment: Maternal Maternal establishment of proper attachment of an infant to and sucking from the breast for nourishment during the first 3 weeks of breastfeeding
1002 Breastfeeding Maintenance Continuation of breastfeeding for nourishment of an infant/toddler
1003 Breastfeeding Weaning Progressive discontinuation of breastfeeding
1617 Cardiac Disease Self-Management Personal actions to manage heart disease and prevent disease progression
0400 Cardiac Pump Effectiveness Adequacy of blood volume ejected from the left ventricle to support systemic perfusion pressure
2200 Caregiver Adaptation to Patient Institutionalization Adaptive response of family caregiver when the care recipient is moved to an institution
2506 Caregiver Emotional Health Emotional well-being of a family care provider while caring for a family member
2202 Caregiver Home Care Readiness Extent of preparedness of a caregiver to assume responsibility for the health care of a family member in the home
2203 Caregiver Lifestyle Disruption Severity of disturbances in the lifestyle of a family member due to caregiving
2204 Caregiver-Patient Relationship Positive interactions and connections between the caregiver and care recipient
2205 Caregiver Performance: Direct Care Provision by family care provider of appropriate personal and health care for a family member
2206 Caregiver Performance: Indirect Care Arrangement and oversight by family care provider of appropriate care for a family member
2507 Caregiver Physical Health Physical well-being of a family care provider while caring for a family member
2208 Caregiver Stressors Severity of biopsychosocial pressure on a family care provider caring for another over an extended period of time
2508 Caregiver Well-Being Extent of positive perception of primary care provider's health status and life circumstances
2210 Caregiving Endurance Potential Factors that promote family care provider continuance over an extended period of time
1301 Child Adaptation to Hospitalization Adaptive response of a child from 3 years through 17 years of age to hospitalization
0120 Child Development: 1 Month Milestones of physical, cognitive, and psychosocial progression by 1 month of age
0100 Child Development: 2 Months Milestones of physical, cognitive, and psychosocial progression by 2 months of age
0101 Child Development: 4 Months Milestones of physical, cognitive, and psychosocial progression by 4 months of age
0102 Child Development: 6 Months Milestones of physical, cognitive, and psychosocial progression by 6 months of age
0103 Child Development: 12 Months Milestones of physical, cognitive, and psychosocial progression by 12 months of age

0104 Child Development: 2 Years Milestones of physical, cognitive, and psychosocial progression by 2 years of age
0105 Child Development: 3 Years Milestones of physical, cognitive, and psychosocial progression by 3 years of age
0106 Child Development: 4 Years Milestones of physical, cognitive, and psychosocial progression by 4 years of age
0107 Child Development: 5 Years Milestones of physical, cognitive, and psychosocial progression by 5 years of age
0108 Child Development: Middle Childhood Milestones of physical, cognitive, and psychosocial progression from 6 years through 11 years of age
0109 Child Development: Adolescence Milestones of physical, cognitive, and psychosocial progression from 12 years through 17 years of age
0401 Circulation Status Unobstructed, unidirectional blood flow at an appropriate pressure through large vessels of the systemic and pulmonary circuits
3000 Client Satisfaction: Access to Care Resources Extent of positive perception of access to nursing staff, supplies, and equipment needed for care
3001 Client Satisfaction: Caring Extent of positive perception of nursing staff's concern for the client
3002 Client Satisfaction: Communication Extent of positive perception of information exchanged between client and nursing staff
3003 Client Satisfaction: Continuity of Care Extent of positive perception of coordination of care as the patient moves from one care setting to another
3004 Client Satisfaction: Cultural Needs Fulfillment Extent of positive perception of integration of cultural beliefs, values and social structures into nursing care
3005 Client Satisfaction: Functional Assistance Extent of positive perception of nursing assistance to achieve mobility and self-care as independently as health condition permits
3006 Client Satisfaction: Physical Care Extent of positive perception of nursing care to maintain body functions and cleanliness
3007 Client Satisfaction: Physical Environment Extent of positive perception of living environment, treatment environment, equipment and supplies in acute or long term care settings
3008 Client Satisfaction: Protection of Rights Extent of positive perception of protection of a client's legal and moral rights provided by nursing staff
3009 Client Satisfaction: Psychological Care Extent of positive perception of nursing assistance to perform emotional and mental activities as independently as health condition permits
3010 Client Satisfaction: Safety Extent of positive perception of procedures, information and nursing care to prevent harm or injury
3011 Client Satisfaction: Symptom Control Extent of positive perception of nursing care to relieve symptoms of illness
3012 Client Satisfaction: Teaching Extent of positive perception of instruction provided by nursing staff to improve knowledge, understanding and participation in care
3013 Client Satisfaction: Technical Aspects of Care Extent of positive perception of nursing staff's knowledge and expertise used in providing care
0900 Cognition Ability to execute complex mental processes
0901 Cognitive Orientation Ability to identify person, place, and time accurately
2100 Comfort Level Extent of positive perception of physical and psychological ease
2007 Comfortable Death Physical and psychological ease with the impending end of life
0902 Communication Reception, interpretation, and expression of spoken, written and non-verbal messages
0903 Communication: Expressive Expression of meaningful verbal and/or non-verbal messages
0904 Communication: Receptive Reception and interpretation of verbal and/or non-verbal messages
2700 Community Competence Capacity of a community to collectively problem solve to achieve community goals

2804 Community Disaster Readiness Community preparedness to respond to a natural or man-made calamitous event
2701 Community Health Status General state of well-being of a community or population
2800 Community Health Status: Immunity Resistance of community members to the invasion and spread of an infectious agent that could threaten public health
2801 Community Risk Control: Chronic Disease Community actions to reduce the risk of chronic diseases and related complications
2802 Community Risk Control: Communicable Disease Community actions to eliminate or reduce the spread of infectious agents that threaten public health
2803 Community Risk Control: Lead Exposure Community actions to reduce lead exposure and poisoning
2805 Community Risk Control: Violence Community actions to eliminate or reduce intentional violent acts resulting in serious physical or psychological harm
2702 Community Violence Level Incidence of violent acts compared with local, state, or national values
1601 Compliance Behavior Personal actions to promote wellness, recovery, and rehabilitation based on professional advice
0905 Concentration Ability to focus on a specific stimulus
0212 Coordinated Movement Ability of muscles to work together voluntarily for purposeful movement
1302 Coping Personal actions to manage stressors that tax an individual's resources
0906 Decision-Making Ability to make judgments and choose between two or more alternatives
1208 Depression Level Severity of melancholic mood and loss of interest in life events
1409 Depression Self-Control Personal actions to minimize melancholy and maintain interest in life events
1619 Diabetes Self-Management Personal actions to manage diabetes mellitus and prevent disease progression
1307 Dignified Life Closure Personal actions to maintain control during approaching end of life
0311 Discharge Readiness: Independent Living Readiness of a patient to relocate from a health care institution to living independently
0312 Discharge Readiness: Supported Living Readiness of a patient to relocate from a health care institution to a lower level of supported living
1403 Distorted Thought Self-Control Self-restraint of disruptions in perception, thought processes, and thought content
0600 Electrolyte & Acid/Base Balance Balance of the electrolytes and non-electrolytes in the intracellular and extracellular compartments of the body
0001 Endurance Capacity to sustain activity
0002 Energy Conservation Personal actions to manage energy for initiating and sustaining activity
1909 Fall Prevention Behavior Personal or family caregiver actions to minimize risk factors that might precipitate falls in the personal environment
1912 Falls Occurrence Number of falls in the past _____ (define period of time)
2600 Family Coping Family actions to manage stressors that tax family resources
2602 Family Functioning Capacity of the family system to meet the needs of its members during developmental transitions
2606 Family Health Status Overall health and social competence of family unit
2603 Family Integrity Family members' behaviors that collectively demonstrate cohesion, strength, and emotional bonding

2604 Family Normalization Capacity of the family system to maintain routines and develop strategies for optimal functioning when a member has a chronic illness or disability
2605 Family Participation in Professional Care Family involvement in decision-making, delivery, and evaluation of care provided by health care personnel
2607 Family Physical Environment Physical arrangements in the home that provide safety and stimulation to family members
2608 Family Resiliency Capacity of the family system to successfully adapt and function competently following significant adversity or crises
2601 Family Social Climate Supportive milieu as characterized by family member relationships and goals
2609 Family Support During Treatment Family presence and emotional support for an individual undergoing treatment
1210 Fear Level Severity of manifested apprehension, tension, or uneasiness arising from an identifiable source
1213 Fear Level: Child Severity of manifested apprehension, tension, or uneasiness arising from an identifiable source in a child from 1 year through 17 years of age
1404 Fear Self-Control Personal actions to eliminate or reduce disabling feelings of apprehension, tension, or uneasiness from an identifiable source
0111 Fetal Status: Antepartum Extent to which fetal signs are within normal limits from conception to the onset of labor
0112 Fetal Status: Intrapartum Extent to which fetal signs are within normal limits from onset of labor to delivery
0601 Fluid Balance Water balance in the intracellular and extracellular compartments of the body
0603 Fluid Overload Severity Severity of excess fluids in the intracellular and extracellular compartments of the body
1304 Grief Resolution Adjustment to actual or impending loss
0110 Growth Normal increase in bone size and body weight during growth years
1700 Health Beliefs Personal convictions that influence health behaviors
1701 Health Beliefs: Perceived Ability to Perform Personal conviction that one can carry out a given health behavior
1702 Health Beliefs: Perceived Control Personal conviction that one can influence a health outcome
1703 Health Beliefs: Perceived Resources Personal conviction that one has adequate means to carry out a health behavior
1704 Health Beliefs: Perceived Threat Personal conviction that a threatening health problem is serious and has potential negative consequences for lifestyle
1705 Health Orientation Personal commitment to health behaviors as lifestyle priorities
1602 Health Promoting Behavior Personal actions to sustain or increase wellness
1603 Health Seeking Behavior Personal actions to promote optimal wellness, recovery, and rehabilitation
1610 Hearing Compensation Behavior Personal actions to identify, monitor and compensate for hearing loss
1105 Hemodialysis Access Functionality of a dialysis access site
1201 Hope Optimism that is personally satisfying and life-supporting
0602 Hydration Adequate water in the intracellular and extracellular compartments of the body
0915 Hyperactivity Level Severity of patterns of inattention or impulsivity in a child from 1 year through 17 years of age
1202 Identity Distinguishes between self and non-self and characterizes one's essence

0204 Immobility Consequences: Physiological Severity of compromise in physiological functioning due to impaired physical mobility
0205 Immobility Consequences: Psycho-Cognitive Severity of compromise in psycho-cognitive functioning due to impaired physical mobility
0707 Immune Hypersensitivity Response Severity of inappropriate immune responses
0702 Immune Status Natural and acquired appropriately targeted resistance to internal and external antigens
1900 Immunization Behavior Personal actions to obtain immunization to prevent a communicable disease
1405 Impulse Self-Control Self-restraint of compulsive or impulsive behaviors
0703 Infection Severity Severity of infection and associated symptoms
0708 Infection Severity: Newborn Severity of infection and associated symptoms during the first 28 days of life
0907 Information Processing Ability to acquire, organize, and use information
0213 Joint Movement: Ankle Active range of motion of the ankle with self-initiated movement
0214 Joint Movement: Elbow Active range of motion of the elbow with self-initiated movement
0215 Joint Movement: Fingers Active range of motion of the fingers with self-initiated movement
0216 Joint Movement: Hip Active range of motion of the hip with self-initiated movement
0217 Joint Movement: Knee Active range of motion of the knee with self-initiated movement
0218 Joint Movement: Neck Active range of motion of the neck with self-initiated movement
0207 Joint Movement: Passive Joint movement with assistance
0219 Joint Movement: Shoulder Active range of motion of the shoulder with self-initiated movement
0220 Joint Movement: Spine Active range of motion of the spine with self-initiated movement
0221 Joint Movement: Wrist Active range of motion of the wrist with self-initiated movement
0504 Kidney Function Filtration of blood and elimination of metabolic waste products through the formation of urine
1827 Knowledge: Body Mechanics Extent of understanding conveyed about proper body alignment, balance and coordinated movement
1800 Knowledge: Breastfeeding Extent of understanding conveyed about lactation and nourishment of an infant through breastfeeding
1830 Knowledge: Cardiac Disease Management Extent of understanding conveyed about heart disease and the prevention of complications
1801 Knowledge: Child Physical Safety Extent of understanding conveyed about safely caring for a child from 1 year through 17 years of age
1821 Knowledge: Conception Prevention Extent of understanding conveyed about prevention of unintended pregnancy
1820 Knowledge: Diabetes Management Extent of understanding conveyed about diabetes mellitus and the prevention of complications
1802 Knowledge: Diet Extent of understanding conveyed about recommended diet
1803 Knowledge: Disease Process Extent of understanding conveyed about a specific disease process
1804 Knowledge: Energy Conservation Extent of understanding conveyed about energy conservation techniques

1828 Knowledge: Fall Prevention Extent of understanding conveyed about prevention of falls
1816 Knowledge: Fertility Promotion Extent of understanding conveyed about fertility testing and the conditions that affect conception
1805 Knowledge: Health Behavior Extent of understanding conveyed about the promotion and protection of health
1823 Knowledge: Health Promotion Extent of understanding conveyed about information needed to obtain and maintain optimal health
1806 Knowledge: Health Resources Extent of understanding conveyed about relevant health care resources
1824 Knowledge: Illness Care Extent of understanding conveyed about illness-related information needed to achieve and maintain optimal health
1819 Knowledge: Infant Care Extent of understanding conveyed about caring for a baby from birth to 1st birthday
1807 Knowledge: Infection Control Extent of understanding conveyed about prevention and control of infection
1817 Knowledge: Labor & Delivery Extent of understanding conveyed about labor and vaginal delivery
1808 Knowledge: Medication Extent of understanding conveyed about the safe use of medication
1829 Knowledge: Ostomy Care Extent of understanding conveyed about maintenance of an ostomy for elimination
1826 Knowledge: Parenting Extent of understanding conveyed about provision of a nurturing and constructive environment for a child from 1 year through 17 years of age
1809 Knowledge: Personal Safety Extent of understanding conveyed about prevention of unintentional injuries
1818 Knowledge: Postpartum Maternal Health Extent of understanding conveyed about maternal health following delivery
1822 Knowledge: Preconception Maternal Health Extent of understanding conveyed about maternal health prior to conception to insure a healthy pregnancy
1810 Knowledge: Pregnancy Extent of understanding conveyed about promotion of a healthy pregnancy and prevention of complications
1811 Knowledge: Prescribed Activity Extent of understanding conveyed about prescribed activity and exercise
1815 Knowledge: Sexual Functioning Extent of understanding conveyed about sexual development and responsible sexual practices
1812 Knowledge: Substance Use Control Extent of understanding conveyed about controlling the use of drugs, tobacco, or alcohol
1814 Knowledge: Treatment Procedure(s) Extent of understanding conveyed about procedure(s) required as part of a treatment regimen
1813 Knowledge: Treatment Regimen Extent of understanding conveyed about a specific treatment regimen
1604 Leisure Participation Use of relaxing, interesting, and enjoyable activities to promote well-being
1203 Loneliness Severity Severity of emotional, social or existential isolation response
2509 Maternal Status: Antepartum Extent to which maternal well-being is within normal limits from conception to the onset of labor
2510 Maternal Status: Intrapartum Extent to which maternal well-being is within normal limits from onset of labor to delivery
2511 Maternal Status: Postpartum Extent to which maternal well-being is within normal limits from delivery of placenta to completion of involution
0411 Mechanical Ventilation Response: Adult Alveolar exchange and tissue perfusion are supported by mechanical ventilation
0412 Mechanical Ventilation Weaning Response: Adult Respiratory and psychological adjustment to progressive removal of mechanical ventilation
2301 Medication Response Therapeutic and adverse effects of prescribed medication

0908 Memory	Ability to cognitively retrieve and report previously stored information
0208 Mobility	Ability to move purposefully in own environment independently with or without assistive device
1204 Mood Equilibrium	Appropriate adjustment of prevailing emotional tone in response to circumstances
1209 Motivation	Inner urge that moves or prompts an individual to positive action(s)
1618 Nausea & Vomiting Control	Personal actions to control nausea, retching, and vomiting symptoms
2106 Nausea & Vomiting: Disruptive Effects	Severity of observed or reported disruptive effects of nausea, retching, and vomiting on daily functioning
2107 Nausea & Vomiting Severity	Severity of nausea, retching, and vomiting symptoms
2513 Neglect Cessation	Evidence that the victim is no longer receiving substandard care
2512 Neglect Recovery	Extent of healing following the cessation of substandard care
0909 Neurological Status	Ability of the peripheral and central nervous system to receive, process, and respond to internal and external stimuli
0910 Neurological Status: Autonomic	Ability of the autonomic nervous system to coordinate visceral and homeostatic function
0911 Neurological Status: Central Motor Control	Ability of the central nervous system to coordinate skeletal muscle activity for body movement
0912 Neurological Status: Consciousness	Arousal, orientation, and attention to the environment
0913 Neurological Status: Cranial Sensory/Motor Function	Ability of the cranial nerves to convey sensory and motor impulses
0914 Neurological Status: Spinal Sensory/Motor Function	Ability of the spinal nerves to convey sensory and motor impulses
0118 Newborn Adaptation	Adaptive response to the extrauterine environment by a physiologically mature newborn during the first 28 days
1004 Nutritional Status	Extent to which nutrients are available to meet metabolic needs
1005 Nutritional Status: Biochemical Measures	Body fluid components and chemical indices of nutritional status
1007 Nutritional Status: Energy	Extent to which nutrients and oxygen provide cellular energy
1008 Nutritional Status: Food & Fluid Intake	Amount of food and fluid taken into the body over a 24-hour period
1009 Nutritional Status: Nutrient Intake	Adequacy of usual pattern of nutrient intake
1100 Oral Hygiene	Condition of the mouth, teeth, gums, and tongue
1615 Ostomy Self-Care	Personal actions to maintain ostomy for elimination
1306 Pain: Adverse Psychological Response	Severity of observed or reported adverse cognitive and emotional responses to physical pain
1605 Pain Control	Personal actions to control pain
2101 Pain: Disruptive Effects	Severity of observed or reported disruptive effects of chronic pain on daily functioning
2102 Pain Level	Severity of observed or reported pain
1500 Parent-Infant Attachment	Parent and infant behaviors that demonstrate an enduring affectionate bond
2902 Parenting: Adolescent Physical Safety	Parental actions to prevent physical injury in an adolescent from 12 years through 17 years of age

2901 Parenting: Early/Middle Childhood Physical Safety Parental actions to avoid physical injury of a child from 3 years through 11 years of age
2900 Parenting: Infant/Toddler Physical Safety Parental actions to avoid physical injury of a child from birth through 2 years of age
2211 Parenting Performance Parental actions to provide a child a nurturing and constructive physical, emotional, and social environment
1901 Parenting: Psychosocial Safety Parental actions to protect a child from social contacts that might cause harm or injury
1606 Participation in Health Care Decisions Personal involvement in selecting and evaluating health care options to achieve desired outcome
1614 Personal Autonomy Personal actions of a competent individual to exercise governance in life decisions
2006 Personal Health Status Overall physical, psychological, social, and spiritual functioning of an adult 18 years or older
1911 Personal Safety Behavior Personal actions of an adult to control behaviors that cause physical injury
2002 Personal Well-Being Extent of positive perception of one's health status and life circumstances
0113 Physical Aging Normal physical changes that occur with the natural aging process
2004 Physical Fitness Performance of physical activities with vigor
1913 Physical Injury Severity Severity of injuries from accidents and trauma
0114 Physical Maturation: Female Normal physical changes in the female that occur with the transition from childhood to adulthood
0115 Physical Maturation: Male Normal physical changes in the male that occur with the transition from childhood to adulthood
0116 Play Participation Use of activities by a child from 1 year through 11 years of age to promote enjoyment, entertainment, and development
2303 Post Procedure Recovery Status Extent to which an individual returns to baseline function following a procedure(s) requiring anesthesia or sedation
1607 Prenatal Health Behavior Personal actions to promote a healthy pregnancy and a healthy newborn
0117 Preterm Infant Organization Extrauterine integration of physiologic and behavioral function by the infant born 24 to 37 (term) weeks gestation
0006 Psychomotor Energy Personal drive and energy to maintain activities of daily living, nutrition, and personal safety
1305 Psychosocial Adjustment: Life Change Adaptive psychosocial response of an individual to a significant life change
2000 Quality of Life Extent of positive perception of current life circumstances
0410 Respiratory Status: Airway Patency Open, clear tracheobronchial passages for air exchange
0402 Respiratory Status: Gas Exchange Alveolar exchange of carbon dioxide and oxygen to maintain arterial blood gas concentrations
0403 Respiratory Status: Ventilation Movement of air in and out of the lungs
0003 Rest Quantity and pattern of diminished activity for mental and physical rejuvenation
1902 Risk Control Personal actions to prevent, eliminate, or reduce modifiable health threats
1903 Risk Control: Alcohol Use Personal actions to prevent, eliminate, or reduce alcohol use that poses a threat to health
1917 Risk Control: Cancer Personal actions to detect or reduce the threat of cancer
1914 Risk Control: Cardiovascular Health Personal actions to eliminate or reduce threats to cardiovascular health

1904 Risk Control: Drug Use Personal actions to prevent, eliminate, or reduce drug use that poses a threat to health
1915 Risk Control: Hearing Impairment Personal actions to prevent, eliminate, or reduce threats to hearing function
1905 Risk Control: Sexually Transmitted Diseases (STD) Personal actions to prevent, eliminate, or reduce behaviors associated with sexually transmitted disease
1906 Risk Control: Tobacco Use Personal actions to prevent, eliminate, or reduce tobacco use
1907 Risk Control: Unintended Pregnancy Personal actions to prevent or reduce the possibility of unintended pregnancy
1916 Risk Control: Visual Impairment Personal actions to prevent, eliminate, or reduce threats to visual function
1908 Risk Detection Personal actions to identify personal health threats
1501 Role Performance Congruence of an individual's role behavior with role expectations
1910 Safe Home Environment Physical arrangements to minimize environmental factors that might cause physical harm or injury in the home
1620 Seizure Control Personal actions to reduce or minimize the occurrence of seizure episodes
0313 Self-Care Status Ability to perform basic personal care activities and household tasks
0300 Self-Care: Activities of Daily Living (ADL) Ability to perform the most basic physical tasks and personal care activities independently with or without assistive device
0301 Self-Care: Bathing Ability to cleanse own body independently with or without assistive device
0302 Self-Care: Dressing Ability to dress self independently with or without assistive device
0303 Self-Care: Eating Ability to prepare and ingest food and fluid independently with or without assistive device
0305 Self-Care: Hygiene Ability to maintain own personal cleanliness and kempt appearance independently with or without assistive device
0306 Self-Care: Instrumental Activities of Daily Living (IADL) Ability to perform activities needed to function in the home or community independently with or without assistive device
0307 Self-Care: Non-Parenteral Medication Ability to administer oral and topical medications to meet therapeutic goals independently with or without assistive device
0308 Self-Care: Oral Hygiene Ability to care for own mouth and teeth independently with or without assistive device
0309 Self-Care: Parenteral Medication Ability to administer parenteral medications to meet therapeutic goals independently with or without assistive device
0310 Self-Care: Toileting Ability to toilet self independently with or without assistive device
1613 Self-Direction of Care Care recipient actions taken to direct others who assist with or perform physical tasks and personal health care
1205 Self-Esteem Personal judgment of self-worth
1406 Self-Mutilation Restraint Personal actions to refrain from intentional self-inflicted injury (non-lethal)
2405 Sensory Function Status Extent to which an individual correctly perceives skin stimulation, sounds, proprioception, taste and smell, and visual images
2400 Sensory Function: Cutaneous Extent to which stimulation of the skin is correctly sensed
2401 Sensory Function: Hearing Extent to which sounds are correctly sensed
2402 Sensory Function: Proprioception Extent to which the position and movement of the head and body are correctly sensed
2403 Sensory Function: Taste & Smell Extent to which chemicals inhaled or dissolved in saliva are correctly sensed

2404 Sensory Function: Vision Extent to which visual images are correctly sensed
0119 Sexual Functioning Integration of physical, socioemotional, and intellectual aspects of sexual expression and performance
1207 Sexual Identity Acknowledgment and acceptance of own sexual identity
0211 Skeletal Function Ability of the bones to support the body and facilitate movement
0004 Sleep Natural periodic suspension of consciousness during which the body is restored
1502 Social Interaction Skills Personal behaviors that promote effective relationships
1503 Social Involvement Social interactions with persons, groups, or organizations
1504 Social Support Perceived availability and actual provision of reliable assistance from others
2001 Spiritual Health Connectedness with self, others, higher power, all life, nature, and the universe that transcends and empowers the self
1212 Stress Level Severity of manifested physical or mental tension resulting from factors that alter an existing equilibrium
2005 Student Health Status Physical, cognitive/emotional, and social status of school age children that contribute to school attendance, participation in school activities, and ability to learn
1407 Substance Addiction Consequences Severity of change in health status and social functioning due to substance addiction
2003 Suffering Severity Severity of anguish associated with a distressing symptom, injury, or loss that has potential long-term effects
1408 Suicide Self-Restraint Personal actions to refrain from gestures and attempts at killing self
1010 Swallowing Status Safe passage of fluids and/or solids from the mouth to the stomach
1011 Swallowing Status: Esophageal Phase Safe passage of fluids and/or solids from the pharynx to the stomach
1012 Swallowing Status: Oral Phase Preparation, containment and posterior movement of fluids and/or solids in the mouth
1013 Swallowing Status: Pharyngeal Phase Safe passage of fluids and/or solids from the mouth to the esophagus
1608 Symptom Control Personal actions to minimize perceived adverse changes in physical and emotional functioning
2103 Symptom Severity Severity of perceived adverse changes in physical, emotional, and social functioning
2104 Symptom Severity: Perimenopause Severity of symptoms caused by declining hormonal levels
2105 Symptom Severity: Premenstrual Syndrome (PMS) Severity of symptoms caused by cyclic hormonal fluctuations
2302 Systemic Toxin Clearance: Dialysis Clearance of toxins from the body with peritoneal or hemodialysis
0800 Thermoregulation Balance among heat production, heat gain, and heat loss
0801 Thermoregulation: Newborn Balance among heat production, heat gain, and heat loss during the first 28 days of life
1101 Tissue Integrity: Skin & Mucous Membranes Structural intactness and normal physiological function of skin and mucous membranes
0404 Tissue Perfusion: Abdominal Organs Adequacy of blood flow through the small vessels of the abdominal viscera to maintain organ function
0405 Tissue Perfusion: Cardiac Adequacy of blood flow through the coronary vasculature to maintain heart function
0406 Tissue Perfusion: Cerebral Adequacy of blood flow through the cerebral vasculature to maintain brain function

0407 Tissue Perfusion: Peripheral Adequacy of blood flow through the small vessels of the extremities to maintain tissue function
0408 Tissue Perfusion: Pulmonary Adequacy of blood flow through pulmonary vasculature to perfuse alveoli/capillary unit
0210 Transfer Performance Ability to change body location independently with or without assistive device
1609 Treatment Behavior: Illness or Injury Personal actions to palliate or eliminate pathology
0502 Urinary Continence Control of elimination of urine from the bladder
0503 Urinary Elimination Collection and discharge of urine
1611 Vision Compensation Behavior Personal actions to compensate for visual impairment
0802 Vital Signs Extent to which temperature, pulse, respiration, and blood pressure are within normal range
1006 Weight: Body Mass Extent to which body weight, muscle, and fat are congruent to height, frame, gender, and age
1612 Weight Control Personal actions to achieve and maintain optimum body weight
1206 Will to Live Desire, determination, and effort to survive
1102 Wound Healing: Primary Intention Extent of regeneration of cells and tissue following intentional closure
1103 Wound Healing: Secondary Intention Extent of regeneration of cells and tissue in an open wound
